

MARK ANTHONY BALTAZAR

Data Engineer

(63) 960-840-2798 | baltazar.markanthony@gmail.com | Marikina City, Philippines | [Mark Anthony Baltazar](#) | [LinkedIn](#)

CAREER SUMMARY

Data-driven professional with 10+ years of experience working across data operations, analytics, and system-based workflows, specializing in data quality, validation, reconciliation, and process automation. Proven track record supporting large, multi-source datasets across benefits administration, CRM, marketing, and operational systems. Experienced in SQL- and Python-based data preparation, root-cause analysis of data and integration issues, and preparing analysis-ready datasets for reporting and downstream consumption. Strong collaborator with offshore and onshore teams, known for improving data reliability, standardizing processes, and enabling confident decision-making. Actively transitioning into Data Engineering roles, with a focus on data pipelines, data quality frameworks, and scalable data foundations.

EXPERTISE

Data Integrations & Sync Troubleshooting | Data Normalization, Schema Mapping & Field Alignment | Data Quality Rules, Validation & Monitoring | Root Cause Analysis of Data & Integration Issues | SQL-Based Data Analysis & QA | Python Data Processing (Pandas, NumPy) | System & Integration Testing (UT Environments) | Client Onboarding Data Support | SOPs & Configuration Documentation | Cross-Functional Collaboration

TECHNICAL SKILLS

SQL | Python (Pandas, NumPy) | Excel (Advanced Formulas, Data Validation, Pivot Tables, VBA, Macros) | Google Sheets | Tableau | Salesforce | HubSpot | Git (Basic) | Microsoft PowerPoint

PROFESSIONAL EXPERIENCE

FREELANCE DATA ANALYST | Remote / Philippines

Jan 2025 – Present

- Supported client data workflows involving data cleaning, validation, reconciliation, and normalization across multiple source systems.
- Standardized datasets and resolved cross-system inconsistencies to produce reliable, analysis-ready data.
- Investigated data issues caused by mismatched schemas, inconsistent identifiers, and business logic gaps.
- Worked directly with clients to translate requirements into clean, trusted datasets and reports.

BENEFIT ADMINISTRATOR | Proview Global (PvG) | Ortigas City, Philippines

Mar 2021 – Oct 2024

- Maintained and reconciled master employee and benefits data across multiple integrated systems, ensuring data consistency and accuracy.
- Investigated and resolved data sync failures and carrier feed errors, performing root cause analysis on enrollment, eligibility, and billing issues.
- Executed system and integration testing in UT environments to validate data flows, field mappings, and business rules before production use.
- Helped define and enforce data quality checks to prevent downstream reporting and billing issues.
- Authored SOPs and standardized data workflows to improve reliability and repeatability.
- Acted as primary point of contact for escalations involving complex, cross-system data conflicts.

DIGITAL MARKETING AND DEMAND GENERATION | Masergy | Mandaluyong City, Philippines

Nov 2019 – Aug 2020

- Maintained and improved CRM master data quality through enrichment, deduplication, normalization, and hygiene processes in HubSpot and Salesforce.
- Unified marketing and sales data across systems to support dashboards and reporting using SQL, Tableau, HubSpot, and Excel.
- Performed data validation and analysis to ensure consistency of metrics across campaigns, pipelines, and revenue reporting.

DATA ANALYST, SME | Proview Global (PvG) | Ortigas City, Philippines

Apr 2016 – Aug 2019

- Led a 5-member data team managing end-to-end multi-system data workflows (enrollments, terminations, renewals, billing, invoicing).
- Owned data validation, reconciliation, and QA across multiple source systems, ensuring accurate master data for operational and financial processes.

- Served as SME for escalations involving data model inconsistencies, system limitations, and integration edge cases.
- Configured client systems by defining data structures, eligibility rules, and core data logic.
- Built Excel VBA automation to streamline data comparison and cleansing, significantly reducing manual effort.

DATA PROCESSING ANALYST | Accenture | Eastwood City, Philippines

Apr 2014 – Aug 2016

- Processed and validated high-volume enrollment, termination, and billing data in enterprise systems.
- Reconciled data across operational and billing systems to produce discrepancy reports and financial summaries.
- Automated a critical enrollment workflow using VBA, reducing processing time from hours to minutes.

EDUCATION

BACHELOR'S DEGREE | Computer Science | SSC-R Manila

CERTIFICATION

Python for Data Science and Machine Learning – Udemy (Mar 2026)
Google Business Intelligence Certificate – Coursera (Mar 2025)
Google Data Analytics Professional Certificate – Coursera (Sep 2024)
